

# GLUTA-DMG™ FOR HUMANS

- **A dietary supplement to support the immune system, liver functions and muscle recovery.\***
- **Gluta-DMG™** is a proven formula that supports peak performance, oxygen utilization, liver detoxification, immune system function, and antioxidant activity.\*
- **This formula helps to support:**
  - Intracellular glutathione and SAME production\*
  - Antioxidant activity\*
  - Liver and detoxification functions\*
  - Oxygen utilization by tissues\*
  - Performance and recovery time after strenuous activity\*
- **Gluta-DMG™** is a unique power packed formula that provides the benefit of DMG along with the building blocks for glutathione from our Whey Protein Isolate.
- The highly bio-available undenatured (intact) Whey Protein Isolate added to **Gluta-DMG™** has been extensively researched for its positive impact on immune system function, glutathione production, muscle metabolism, longevity, and antioxidant support.\*
- The intact Whey Protein Isolate contains a high level of glutathione precursors that are easily digested and pass readily into the blood stream.\* From the blood stream these precursors are taken up by the cells and are metabolized into glutathione.\* Glutathione is the master antioxidant of the cell because it regulates other antioxidants and acts as a free radical scavenger and detoxifying agent.\*
- DMG helps support optimal immune system function and liver health.\*
- The combination of our DMG with the intact Whey Protein Isolate provides uncompromised and unparalleled cellular support for your whole body.\*
- Available in a great-tasting vanilla flavored powder that mixes with any cold drink and at a great price! Also try it mixed in yogurt or with our protein powders.
